ABOUT THE

BAR FEEDER TIDY

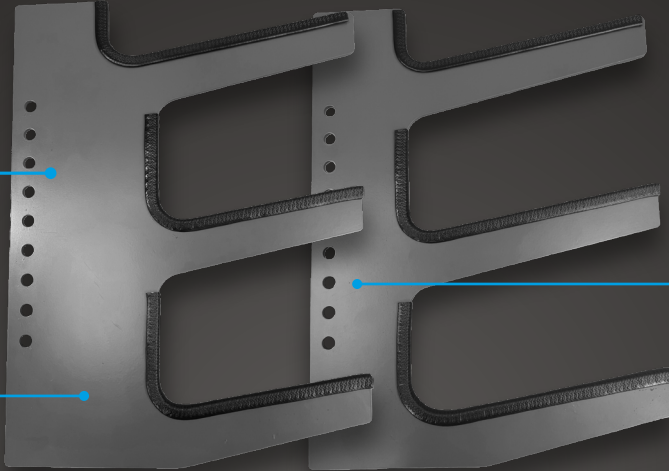

Precision Ltd
CNC TURNING SPECIALISTS

Laser cut
from 6mm
thick S275
steel

Overall
dimensions:
H: 550mm
W: 410mm

Powder coated
finish in grey
to match the
latest IEMCA
Bar Feeder lids

LONG BASE STYLE

Used with CoolBlaster Unit

SHORT BASE STYLE

Used without CoolBlaster Unit

UNIVERSAL FITTING

Fits all types of IEMCA Bar Feeders from 1m to 3.6m in length with 35mm hole pitch on leg stands (using existing bolts)

SHORT & LONG BASE STYLES

Short base is our standard tidy. Long base extends the tidy base out, to clear CoolBlaster Unit when located under the Bar Feeder

SAFELY INCREASE PRODUCTIVITY

Easily organise your stock bar, prevent trip hazards and requires less lifting distance for operator when re-loading

Please note: 1 set of 4 Tidies have been tested up to 500kg of bar, spread evenly over the 3 arms. These Tidies MUST NOT be overloaded and C&M Precision Ltd will not be held responsible for any injuries caused during the use of these Tidies. T&C's apply.
